TI-P142-01 CMGT Issue 15

# SG Iron Ball Float Steam Traps (DN15 to DN50)

## **Description**

The FT47 is an SG iron ball float steam trap with integral automatic air venting facility. It is available with horizontal flanged connections as well as vertical flanged connections, designated FT47V. As an option in the horizontal version up to 21 bar g, a manually adjustable needle valve can be added for use as a steam lock release designated FT47-C. If required, the cover can be drilled and tapped % BSP or NPT for the purpose of fitting a drain cock. For the horizontal DN50 only, body and cover castings are produced by a TÜV approved foundry.

## **Standards**

This product fully complies with the requirements of the Pressure Equipment Directive (PED) and carries the **( (** mark when so required.

## Certification

This product is available with a manufacturers' Typical Test Report. As an available option certification to EN 10204 3.1 can be supplied. **Note:** All certification/inspection requirements must be specified at the time of order placement.

## Sizes and pipe connections

DN15, DN20, DN25, DN40 and DN50.

Note: Flow direction, for horizontal orientated traps, when facing the body:

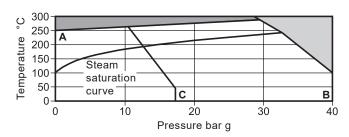

- DN15 to DN25 is left to right.
- DN40 and DN50 is right to left.

For vertically orientated traps the flow is downwards only.

Standard flanges are EN 1092 PN40 with face-to-face dimensions in accordance with EN 26554 (Series 1).

**On request** ASME B 16.5 Class 150 flanges are also available with face-to-face dimensions in accordance with EN 26554 (Series 1). ASME flanges are supplied with tapped (UNC) holes for flanged bolts.

## Pressure/temperature limits

The product **must not** be used in this region.

This product should not be used in this region as damage to the internals may occur.

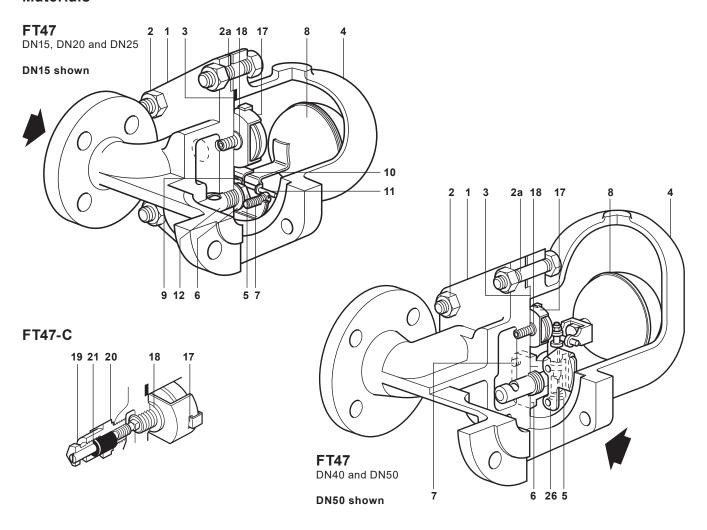

## A - C Flanged ASME (ANSI) A150

## A - B Flanged EN 1092 PN40

Body d	esign conditions				PN40
PMA	Maximum allowable pressure		40 bar g @ 100 °C

## **Capacities**

# Additional cold water capacities from the thermostatic air vent under start-up conditions

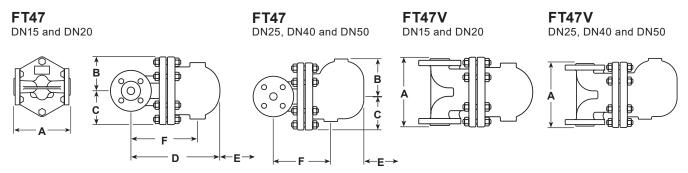

Capacities shown above are based on condensate at saturation temperature. Under start-up conditions when the condensate is cold the internal thermostatic air vent will be open and provides additional capacity to the main valve. The following table gives the minimum additional cold water capacities from the air vent.

ΔP (bar)		0.5	1	2	3	4.5	7	10	14	21	32
		Minimum additional cold water capacity (kg/h)									
DN15 and DN20	up to 21 bar	450	600	780	1 040	1 140	1 350	1 530	1 750	2 300	-
DN15 and DN20	32 bar only	170	250	380	520	600	780	860	1 140	1 170	1 200
DN25. DN40 and DN50	up to 21 bar	460	680	900	1 080	1 300	1 600	1 980	2 050	2 600	-
DN40 and DN50	32 bar only	90	120	350	460	600	850	900	1 020	1 200	1 300

## Dimensions/weights (approximate) in mm and kg

Size	Α	В	С	D	E	F	Weight
DN15	150	80	80	215	120	155	10.8
DN20	150	80	80	225	120	165	10.8
DN25	160	115	85	276	170	215	15.0
DN40	230	130	115	326	200	200	33.0
DN50	230	141	123	332	200	236	34.0

Face-to-face dimensions in accordance with EN 26554 (Series 1)

## Safety information, installation and maintenance

For full details see the Installation and Maintenance Instructions (IM-S02-30) supplied with the product.

### Installation note:

The FT47 must be installed with the direction of flow as indicated on the body, and with the float arm in a horizontal plane so that it rises and falls vertically.

## Disposal

This product is recyclable. No ecological hazard is anticipated with the disposal of this product, providing due care is taken.

## How to order

**Example:** 1 off Spirax Sarco DN25 FT47-14 ball float steam trap, having an SG iron body and cover with thermostatic air vent. Connections are to be flanged to EN 1092 PN40.

## **Spare parts**

The spare parts available are shown in heavy outline. Parts drawn in a grey line are not supplied as spares.

### Available spares

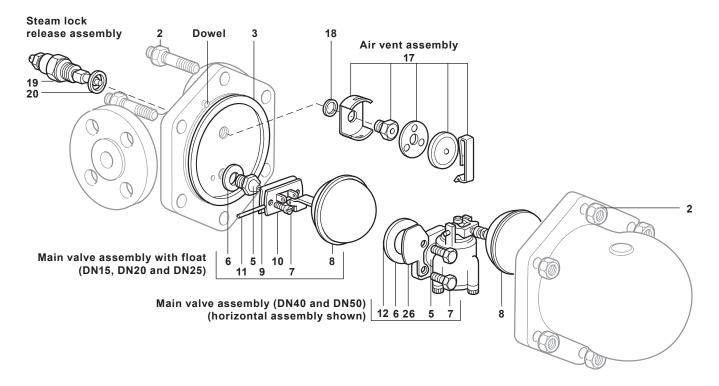

The state of the s	
Main valve assembly with float (DN15, DN20 and DN25 horizontal traps)*	5, 6, 7, 8, 9, 10, 11
Main valve assembly with integral erosion deflector (DN40 and 50) ** (specify horizontal or vertical trap)	5, 6, 7, 12, 26
Main valve assembly with float (DN15, DN20 and DN25 vertical traps only)	5, 6, 7, 8, 9, 10, 11
Ball float (DN40 and 50)	8
Air vent assembly	17, 18
Steam lock release and air vent assembly (FT47-C)	17, 18, 19, 20, 21
Complete set of gaskets (packet of 3 sets)	3, 6, 18, 20, 21

<sup>\*</sup> On horizontal traps the erosion deflector on the DN15, DN20 and DN25 is pressed into the body during manufacture and not available as a spare.

## How to order spares

Always order spares by using the description given in the column headed 'Available spares' and state the size and type of trap, including pressure range and orientation i.e.: horizontal or vertical connections.

**Example:** 1 - Air vent assembly for a Spirax Sarco DN20 FT47-21 ball float steam trap, with horizontal connections.

# Recommended tightening torques

Item	Part		or m	N m
	DN15, 20 and 25	17 A/F	M10 x 60	19 - 22
2	DN40	19 A/F	M16 x 85	60 - 66
	DN50	24 A/F	M16 x 85	80 - 88
5	DN15, 20 and 25	17 A/F		50 - 55

Item	Part	© m	N m	
	DN15, 20 and 25		M5 x 20	2.5 - 2.8
7	DN40	10 A/F	M6 x 20	10 - 12
	DN50	13 A/F	M8 x 20	20 - 24
17		17 A/F		50 - 55
19		22 A/F		50 - 55

<sup>\*\*</sup> There is no erosion deflector on vertical traps in sizes DN40 and DN50.
