

## LCV3, LCV4, LCV6 and LCV7 Lift Check Valves

### Description

The LCV3, LCV4, LCV6 and LCV7 lift check valves are designed in accordance with EN 12516 and ASME B16.34 to prevent reverse flow in the installations. The design of these valves allows them to be easily serviced without removing the valve from the pipeline - See Spare parts, page 8.

### Available types:

- LCV3** Cast iron bodied with stainless steel internals.
- LCV4** Cast steel bodied with stainless steel internals.
- LCV6** Stainless steel bodied with stainless steel internals.
- LCV7** SG iron bodied with stainless steel internals.

### Optional for the LCV4:

High temperature bolting (stainless steel A2-80).

### Standards

These products fully comply with the requirements of the EU Pressure Equipment Directive/UK Pressure Equipment (Safety) Regulations and carries the **CE** mark when so required.

### Standard shut-off

This range of lift check valves conform to EN 12266-1: 2003 Rate F.

### Certification

With the exception of the LCV3 these products are available with certification to EN 10204 3.1.

**Note:** All certification/inspection requirements must be stated at the time of order placement.

## Safety information, installation and maintenance

For full details see the Installation and Maintenance Instructions (IM-P029-17) supplied with the product.

### Installation note:

Always install the lift check valve with the flow in the direction indicated on the body.

### Disposal

These products are recyclable. No ecological hazard is anticipated with the disposal of these products, providing due care is taken.

### How to order

**Example:** 1 off Spirax Sarco DN15 LCV4 lift check valve having flanged EN 1092 PN40 connections.

### Spare parts

The spare parts available are shown in solid outline. Parts drawn in a grey line are not supplied as spares.

### Available spares

LCV Gaskets kit (Cover gasket and seat gasket)	<b>Spare 1</b>
LCV Internals kit (Cover gasket, seat gasket, spring, disc and seat)	<b>Spare 2</b>

### How to order spares

Always order spares by using the description given in the column headed 'Available spares' and state the size and type of trap. Always order spares by using the description of the LCV and Spare 1 or Spare 2.

**Example:** 1 off LCV Internals kit – Spare 2, for a Spirax Sarco DN15 LCV4 lift check valve having flanged EN 1092 PN40 connections.
