SVL488

Stainless Steel Sanitary Safety Valve

Description

The SVL488 is a soft seated stainless steel, full lift, TÜV approved safety valve suitable for steam, gas and liquid applications.

Applications

The SVL488 is suitable for the overpressure protection of low pressure steam equipment, pipelines and pressure vessels, particularly within the brewing and beverage industries where extremely high standards of hygiene and cleanliness are required to maintain product quality and to minimise contamination of the process media.

Available types

Two main variations of the valve are available:
SVL488-B with a sealed cap for liquid service.
SVL488-C with a packed easing lever for steam (or other services where a lever is specified).

Note: Both designs have a closed bonnet and EPDM soft seat seal and bellows as standard.

Certification

A manufacturer's Typical Test Report is provided as standard for each valve including valve set and hydraulic pressure. Also available on request is material certification in accordance with EN 10204 3.1.

Standards and approvals

- Approved by the TÜV to AD Merkblatt A2, TRD 421 and Vd TÜV SV100.
- EU Pressure Equipment Directive/UK Pressure Equipment (Safety) Regulations have been satisfied.
- The valve belongs to Category 4, having been designed for use with fluids in Group 1 and 2 (gases and liquids).

Always consult Spirax Sarco for fluid compatibility.

Sizes and end connections

Nominal inlet size	DN	25	40	50	65	80	100
Nominal outlet size	DN	40	65	80	100	125	150
Inlet clamp	inch	1½	2	2½	3	4	4½
Outlet clamp	inch	2	3	4	4½	5	6

Pipe connections: Valves are available with flanged DIN 2633 PN16 or sanitary clamp ISO 2852 (ISO 2037 pipe standard) connections. Please state connection required when placing an order.

Optional extras

The standard inlet wetted surface finish is 0.75 µm Ra. Other finishes are available on request - Please contact Spirax Sarco.

Cap/lifting lever types

Gastight cap
All sizes

Gastight lifting device
DN25 only

Packed lever
DN40 and larger

Materials

No.	Part	Material	
1	Body	Stainless steel	1.4404 316L
	Seat	Stainless steel	1.4404 316L
2	Disc	Stainless steel	1.4404 316L
3	Disc 'O' ring	EPDM (FDA approved)	
4	Guide/bush	Stainless steel	1.4404 316L/PTFE + 15% Glass
5	Bonnet	Stainless steel	1.4404 316L
6	Stem	Stainless steel	1.4404 316L
7	Spring plates (2)	Stainless steel	1.4404 316L
	Adjustment screw	Stainless steel	1.4404 316L
8	with bush	PTFE + 15% glass	
9	Cap	Stainless steel	1.4404 316L
10	Spring	Stainless steel	1.4310 301
11	Packed lever	Stainless steel	1.4404 316L
12	Clamp	Stainless steel	1.4401 316
13	Bellows	EPDM (FDA approved)	
14	Body gasket	Laminated graphite	

Pressure/temperature limits

The product **must not** be used in this region.

Body design conditions		PN16	
Set pressure range	DN25 and DN40	Maximum	16 bar g
		Minimum	0.1 bar g
	DN50	Maximum	15 bar g
		Minimum	0.2 bar g
	DN65 and DN80	Maximum	10.34 bar g
		Minimum	0.1 bar g
DN100	Maximum	8.2 bar g	
	Minimum	0.1 bar g	
Temperature	With EPDM soft seat	Maximum	150 °C
	All versions	Minimum	-45 °C
Performance data	Overpressure	Steam, gas	Maximum 10%
		Liquid	Maximum 10%
	Blowdown limits	Steam, gas	Maximum 10%
		Liquids	Maximum 20%
	Derated coefficient of discharge values α_d	Steam, gas	0.70
		Liquid	0.45
Maximum permitted backpressure		10% of set pressure	
Designed for a maximum inlet cold hydraulic test pressure of:		24 bar g

Safety information, installation and maintenance

For full details see the Installation and Maintenance Instructions supplied with the product.

Installation note:

The safety valve should always be fitted with the centre line of the housing vertically above the line.

How to order

Example: 1 off Spirax Sarco DN50 SVL488-B-E-PN16 safety valve with a set pressure of 10 bar g. (If the bellows is not required, please add 'without bellows').
