Thermodynamic Steam Traps with replaceable seats (Screwed/Socket Weld)

Description

The **TD62LM** and **TD62M** are maintainable high pressure thermodynamic steam traps with integral strainer and a replaceable seat to ease maintenance. They have been specifically designed for mains drainage applications up to 62 bar g (899 psi g).

The **TD62LM** is specifically designed for relatively small condensate loads on superheat and mains drainage applications. An insulating cover is fitted as standard to prevent the trap being unduly influenced by excessive heat loss when subjected to low outside temperatures, wind, rain etc.

The body and cover meet typical industry standards including Charpy testing at 27J @ -30 °C (-22 °F).

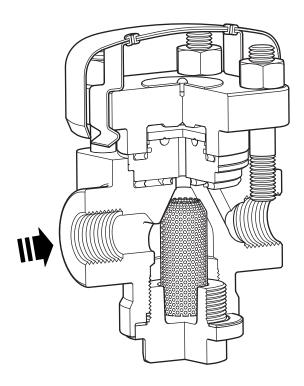

Standards

This product fully complies with the requirements of the European Pressure Equipment Directive 2014/68/EU.

Certification

This product is available with certification to EN 10204 3.1.

Note: All certification/inspection requirements must be stated at the time of order placement.

Sizes and pipe connections

 $\frac{1}{2}$ ", $\frac{3}{4}$ " and $\frac{1}{4}$ " screwed ends NPT.

1/2", 3/4" and 1" socket weld ends to ANSI B 16.11 Class 3000.

Optional extras

An optional blowdown/depressurisation valve can be supplied at extra cost - please consult Spirax Sarco.

Pressure/temperature limits

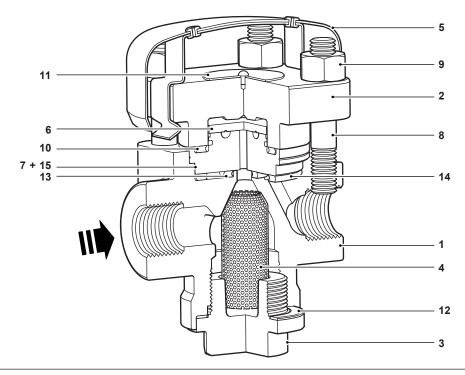

The product **must not** be used in this region.

The product should not be used in this region or beyond its operating range as damage to the internals may occur.

Safety information, installation and maintenance

For full details see the Installation and Maintenance Instructions (IM-P015-04) supplied with the product.

Installation note:

Preferably install in horizontal pipelines with the insulating cover uppermost although it can be fitted in other positions. After 24 hours in service the cover nuts should be checked for tightness.

The product is recyclable no ecological hazard is anitcipated with the disposal of this product, providing due care is taken.

How to order

Example: 1 off Spirax Sarco ½" TD62LM thermodynamic steam trap with integral strainer having screwed NPT connections, suitable for steam main drainage. An aluminium insulating cover shall be fitted as standard.

Spare parts

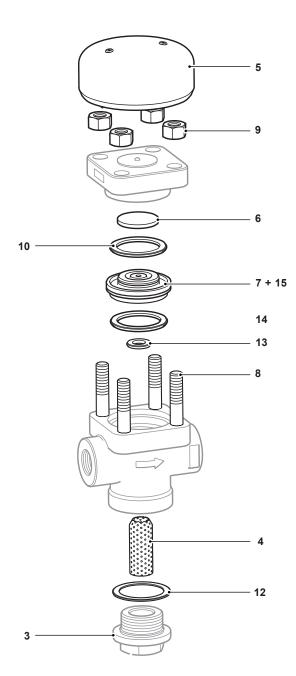

The spare parts available are shown in solid outline. Parts drawn in a grey line are not supplied as spares.

Available spares

Insulating cover	5
Set of cover studs and nuts (set of 4)	8, 9
Seat and disc assembly	6, 7, 10, 13, 14, 15
Strainer screen 100 mesh	4
Set of gaskets (packet of 3 sets)	10, 12, 13, 14
Strainer cap gasket (3 off)	12

How to order spares

Always order spares by using the description given in the column headed 'Available spares' and state the size and type of trap. **Example:** 1 - Strainer screen for a Spirax Sarco ½" TD62LM thermodynamic steam trap.
