

# spirax sarco **TD62LM** and **TD62M** Thermodynamic Steam Traps with **Replaceable Seats EN Body (Flanged connections)**

### Description

The TD62LM and TD62M are maintainable high pressure thermodynamic steam traps with integral strainer and a replaceable seat to ease maintenance. They have been specifically designed for mains drainage applications up to 62 bar g.

The TD62LM is specifically designed for relatively small condensate loads on superheat and mains drainage applications. An insulating cover is fitted as standard to prevent the trap being unduly influenced by excessive heat loss when subjected to low ambient temperatures, wind or rain. Body and cover castings are produced by a TÜV approved foundry.

### Standards

This product fully complies with the requirements of the EU Pressure Equipment Directive 2014/68/EU.

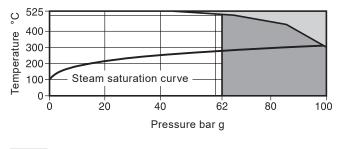

### Certification

This product is available with certification to EN 10204 3.1. Note: All certification/inspection requirements must be stated at the time of order placement.

# Sizes and pipe connections

DN15, DN20 and DN25. Standard flange EN 1092 PN100.

## **Pressure/temperature limits**

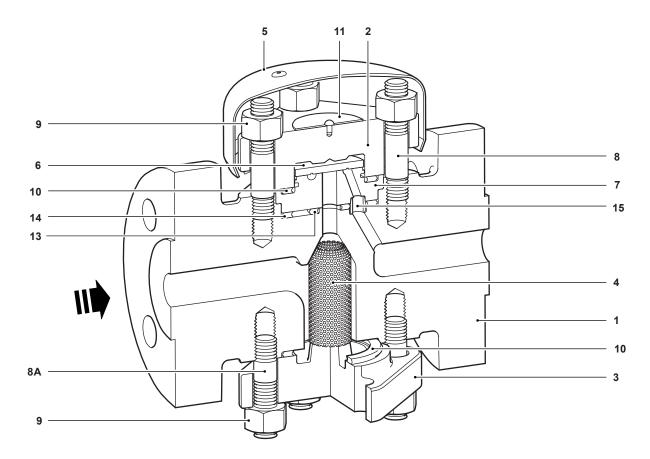

The product **must not** be used in this region.

The product should not be used in this region or beyond its operating range as damage to the internals may occur.

Minimum operating pressure 8 bar for the TD62LM Differential pressure bar (x 100 = kPa)

**Safety information, installation and maintenance** For full details see the Installation and Maintenance Instructions (IM-P068-58) supplied with the product.

### Installation note:

Preferably install in horizontal pipelines with the insulating cover uppermost although it can be fitted in other positions. After 24 hours in service the cover nuts should be checked for tightness.

### Disposal

1

The product is recyclable no ecological hazard is anitcipated with the disposal of this product, providing due care is taken.

### How to order

Example: 1 off Spirax Sarco DN20 TD62LM thermodynamic steam trap with EN steel body having an integral strainer replaceable seat and flanged PN100 connections suitable for steam main drainage. An aluminium insulating cover shall be fitted as standard.

# **Spare parts**

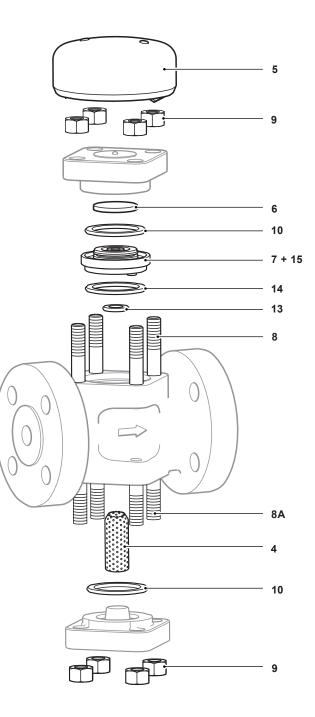

The spare parts available are shown in solid outline. Parts shown in a grey line are not supplied as spares.

| Available spares                       |                      |
|--|----------------------|
| Insulating cover                       | 5                    |
| Set of cover studs and nuts (set of 8) | 8, 8A, 9             |
| Seat and disc assembly                 | 6, 7, 10, 13, 14, 15 |
| Strainer screen 100 mesh               | 4                    |
| Set of gaskets (packet of 3 sets)      | 10, 13, 14           |
| Cover gasket (3 off)                   | 10                   |

# How to order spares

Always order spares by using the description given in the column headed 'Available spares' and state the size and type of trap.

**Example:** 1 - Strainer screen for a Spirax Sarco DN25 TD62LM thermodynamic steam trap (EN body).

# **Recommended tightening torques**

| Item     | or mm     | N m     |
|----------|-----------|---------|
