

Steam heat exchange solutions

Improving your profitability and performance

Steam heat exchange

One of the most versatile applications for steam is as the primary medium for indirect heating, using heat exchangers. Fluids can be heated in large volumes using this safe, sterile method in both domestic and industrial processes.

By working with Spirax Sarco you can ensure your process and HVAC systems run smoothly, efficiently and safely.

By allowing us to assess and fulfil your needs, we will provide you with a fully tailored heat exchange solution.

Why choose a Spirax Sarco heat exchange solution?

Series Vs heat exchanger

Confidence

Spirax Sarco will offer a high level of assistance and support throughout the design and purchasing cycle of your heat exchange solution.

Installations, which incorporate different components from many suppliers, can often be difficult to design and install, incur high capital costs, and leave you overwhelmed with cost breakdowns, multiple orders, and numerous vendors to manage.

With a Spirax Sarco heat exchange solution, our high quality equipment is used for the vital steam control and condensate removal functions, which are necessary to provide accurate, and safe control.

TS® heat exchanger

To meet a wide range of applications a choice of heat exchangers are available, all designed for steam use. These are the Series Vs, manufactured by Spirax Sarco; the TS® heat exchanger, manufactured by our partner Alfa Laval; and the Plate & Shell®, manufactured by our partner Vahterus.

By choosing Spirax Sarco as your heat exchange solution provider you can have full confidence that all packages are supplied at a fixed cost, will work reliably as expected and are fully guaranteed, reducing the risk to you.

We have a dedicated team with expertise in all elements of steam heat exchange and its application. We will provide you with a single point of contact for your heat exchange solution, without the need for you to provide your own engineering resource or manage multiple suppliers, therefore saving you time and money.

Plate & Shell® heat exchanger

Our team will supply you with engineering advice in order for you to make the right purchasing decision.

We will provide you with the necessary information and drawings, we will endeavour to save you time and money, and reduce risks. All solutions provided by Spirax Sarco will meet local statutory requirements and will be provided with all of the necessary certification and documentation.

To assist you in making correct investment decisions Spirax Sarco will assist with lifetime cost levels, budget pricing and pay back analysis.

Guaranteed delivery and support

We offer a full support service during the installation and commissioning of your heat exchange solution.

Spirax Sarco guarantees delivery for all heat exchange solutions and provides a single source for troubleshooting during installation, commissioning and start-up.

Choosing one of our packaged units ensures you will have:

- Reduced downtime (and associated costs) due to quick installation.
- Fewer health and safety costs, due to less people being involved in the installation.
- Better efficiencies with offsite sub assembly and fabrication.
- No variations.

Improving your profitability

Because all Spirax Sarco heat exchange solutions are designed by experts, you can be confident that the precisely sized and matched equipment will offer you efficient, and accurate operation. They will require less maintenance, and fewer spares.

Packaged units are pre-assembled to provide quick, simple installation and commissioning, with minimum downtime, also freeing up valuable floor space.

Spirax Sarco's customer service and experience

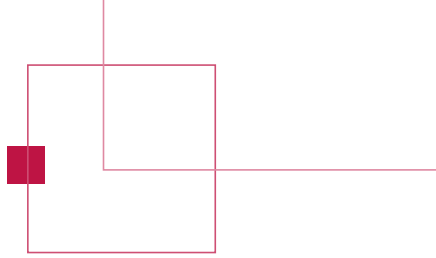

At Spirax Sarco we have a dedicated team, with expertise in all elements of steam heat exchange and its application.

Our worldwide network of over 800 direct sales and support engineers, will provide you with technical training, support and solutions... not to mention our website at www.SpiraxSarco.com

Our many years of experience, working with customers, in all industries has enabled us to set the design standard for steam heat exchange solutions.

At Spirax Sarco we are committed to offering you exceptional solutions, backed up by technological leadership, customer service commitment and the knowledge that you are dealing with the industry experts.

Products to match your requirements

With our expertise and experience in steam, a packaged heat exchange solution can be provided to meet your exact requirements, offering you a highly efficient solution to heating with steam. Compact units, which include Spirax Sarco's unique EasiHeat™ and QuickHeat™ systems, are pre-assembled to offer quick simple installation, and speedy commissioning, with minimum downtime.

To provide complete flexibility we will also design and provide un-assembled heat exchange solutions to meet your individual requirements.

Systems designed for you by Spirax Sarco offer easy installation, rapid start-up and commissioning, and low ownership costs.

What's more, you are guaranteed the highest level of service and technical support for the life of the unit.
