

Steam Expertise when you need it. 365 days a year.

When managing a steam system you need the reassurance that someone is on hand to ensure responsive and reliable support. Spirax Sarco are committed to providing you with the most appropriate aftercare services to meet your needs, so you can be rest assured that we will take care of everything.

All of our engineers hold all of the required accreditations to undertake the maintenance, repairs and servicing of steam system equipment installed by Spirax Sarco and others.

You'll have a dedicated steam system specialist plus a team of engineers on-call, bringing you the best aftercare experience. Whether you're in need of implementing a preventative maintenance program, emergency repairs, general maintenance or perhaps you just have a question about your steam system. It doesn't matter what kind of aftercare support you require – if it matters to you, it matters to us.

Steam System Servicing Made Simple

DISCOVERY

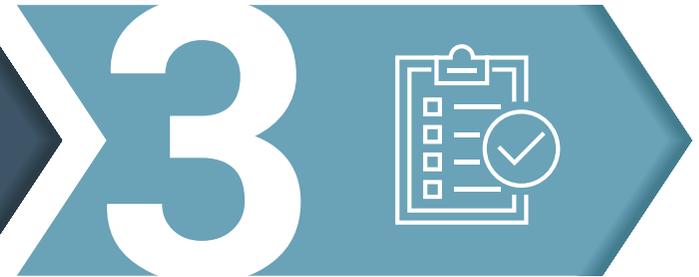

Your dedicated engineer will carry out a deep dive of your steam system to get a complete understanding of your site and your goals

DESIGN

Your dedicated engineer will build your service plan package to your requirements and expectations

DELIVERY

Your dedicated engineer will put your plan in place and we will do the rest

Build your Service Plan Package

Your Service Plan Package can be especially designed for you and your steam system at a fixed price that you know in advance.

Boiler House

The boiler is the heart of any steam distribution system. As is the case with any critical plant, a preventative maintenance program is essential to ensure its safe and efficient operation.

Includes:

- Re-calibration and maintenance of boiler control equipment (level probes, TDS, bottom blowdown controls)

Diagnostic or Major Servicing Available

Humidifier

Humidification systems ensure constant humidity for process applications and provide a climate controlled environment for valuable or delicate items.

Includes:

- Checks and replacement of parts where required

Suitable for Electrode type and heater type self-generative humidifiers and direct steam injection humidifiers

Controls

Automatic control systems are installed to deliver accurate and reliable temperature and pressure control.

Includes:

- Visual inspections, checks and replacement of parts where required

Diagnostic or Major Servicing Available

Metering

The installation of flow meters is essential for any fiscal/data management system.

Includes:

- Visual inspections, checks and re-calibration to ensure flow meters are properly maintained, reading correctly and recalibrated at the recommended intervals

Suitable for flow meters

Build your Service Plan Package (Cont'd)

Your Service Plan Package can be especially designed for you and your steam system at a fixed price that you know in advance.

Heat Exchangers

Protect your EasiHeat™ equipment to ensure your system is regularly serviced to run at optimum performance.

Includes:

- Visual inspections, checks and replacement parts where required
- Major intrusive overhaul of control equipment and high limit protection devices

6 Monthly and Annual Servicing Available

Heat Exchangers Extended Warranty

Extend your EasiHeat™ warranty (annually) for up to a total period of 3 years. As well as ensuring the EasiHeat™ is regularly maintained, offering total peace of mind, the program also covers the replacement/repair of any components during the contract period, at a fixed annual price.

Includes:

- Visual inspections, checks and replacement parts where required

6 Monthly and Annual Servicing Available

Steam System Conditioning

Conserve water and energy, reduce chemical usage and plant downtime.

Includes:

- Water and process mapping, deposit analysis, steam quality analysis, chemical program and control

Annual Servicing Available

24 Hour Priority Response

24/7 cover for critical steam operations where a greater level of guaranteed availability is needed.

Includes:

- Access to technical support through a dedicated 24-Hour Priority Response telephone number, staffed 24-hours a day, 365 days a year

Available in the UK only

This service is currently unavailable in the Republic of Ireland, Northern Ireland and some parts of Scotland
